

VIVAN

I Perfume

DIRECTIONS FOR USE

This perfume is made with careful handicraft and with materials of first quality. It could be used also such as picture frame to lean on a piece of furniture or to hang on the wall. It doesn't need of any battery, of any current-tap and of any thread light. It's for this reason that should be used in every place: at home or in the office.

Thanks for the high quality of product, the scent spreads in every room and it keeps for long-time also if you use some drops only. It's possible to increase the scent or to change it with another flavour. The change will be smelt after a few days.

DIRECTIONS FOR USE

1- START

In the back side of the picture frame there are 4 holes. With the special dropper, inside of the bottle of scent, put inside of every hole $3/6$ drops of perfume. If the scent will be discharged, clean it immediately.

2 – RECHARGE

Repeat the charge every 7 -14 days.

3 – FURTHER USE

A – PICTURE FRAME

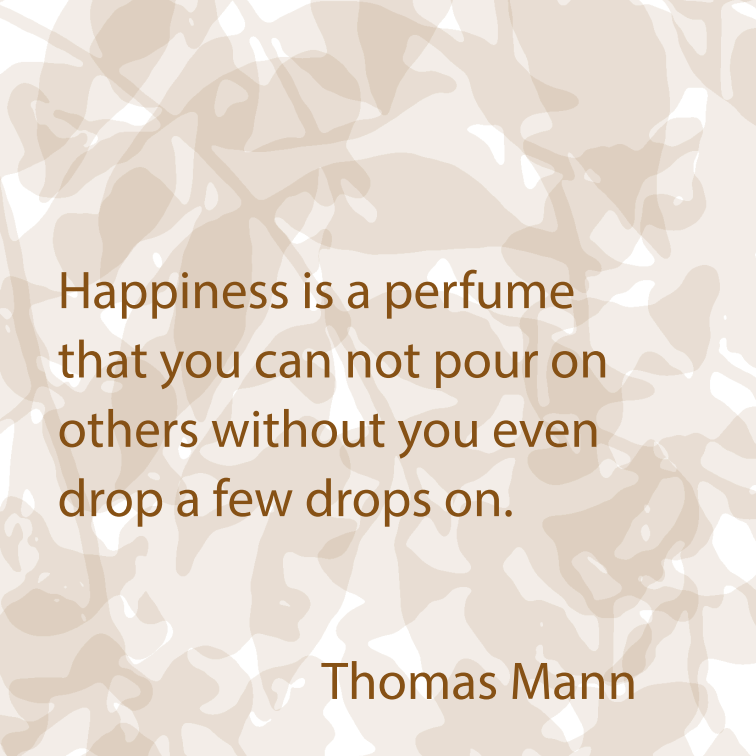

After the start (point 1), in the back side of the frame, insert the base (foot) putting pressure on the hole of the side you consider as base.

B – FRAME ON THE WALL

It's possible to use the holes to hang the frame on the wall.

C – PLASTIC BUNGS

Their use is to close the holes, in the back side of the frame, to hang it on the wall and to space out the scented surface optimizing the perfume.

Happiness is a perfume
that you can not pour on
others without you even
drop a few drops on.

Thomas Mann
